SEPTEMBER 2020 EDITION

FIRE CONSULTANCY

OJEU REF 2017S 246 514943
 AWARDED 03/04/2018
 EXPIRES 02/04/2022

This framework gives customers compliant access to a comprehensive list of highly qualified and experienced fire consultants.

This Framework is split into 8 lots:

LOT 1	Fire Risk Assessments (UKAS Accredited)
LOT 2	Fire Risk Assessments (Competent Person)
LOT 3	Not Appointed
LOT 4	Compartmentation Surveys (Competent Person)
LOT 5	Specialist Advice
LOT 6	On-Site Quality of Work Inspection
LOT 7	Combined Works (UKAS Accredited)
LOT 8	Combined Works (Competent Person)

To give this framework national coverage, each Lot has been sub-divided by geographical location: The South East / Greater London / Rest of England and Wales.

FIRE CONSULTANCY

LOT 1

Fire Risk Assessments (UKAS Accredited)

These FRAs will be carried out by individuals who are UKAS accredited 'Competent Persons', and who work for a company with a company based 'Competent Person' scheme.

FRA's will include all areas of the internal and external routes, and may include common areas, riser ducts, common loft spaces and ventilation shafts. This will also take into account fire alarm detection systems, emergency lighting, fire-fighting equipment and signage of the properties in question.

FIRE CONSULTANCY

LOT 2

Fire Risk Assessments (Competent Person)

These FRAs will be carried out by individuals who can demonstrate that they are competent through sufficient training, experience, and knowledge, to enable them to properly assist in undertaking the preventative and protective measures.

FRA's will include all areas of the internal and external routes, and may include common areas, riser ducts, common loft spaces and ventilation shafts. This will also take into account fire alarm detection systems, emergency lighting, fire-fighting equipment and signage of the properties in question.

FIRE CONSULTANCY

LOT 4

Compartmentation Surveys (Competent Person)

These surveys will be carried out by individuals who can demonstrate that they are competent through sufficient training, experience and knowledge to enable them to properly assist in undertaking the preventative and protective measures.

Surveys will involve a detailed intrusive inspection (separate to FRA) on the varying fire compartmentation elements of buildings; and preparation of a report that will address the specific fire compartmentation issues, including deficiencies, and the requirements to rectify in priority order and estimated costs.

FIRE CONSULTANCY

LOT 7

Combined Works (UKAS Accredited)

This Lot covers all work through one consultant who is UKAS accredited. This is ideal for customers who wish to have all aspects covered by one firm to simplify their fire consultancy requirements, and to gain more consistency in their approach to fire safety from inception to completion.

FIRE CONSULTANCY

LOT 8

Combined Works (Competent Person)

This Lot covers all work through one consultant, but using people who are assessed as competent through means other than the UKAS route. This is ideal for customers who wish to have all aspects covered by one firm to

simplify their fire consultancy requirements, and to gain more consistency in their approach to fire safety from inception to completion. Differently to Lot 7, customers must also be content to assess competence on a case by case basis.

The background is a solid blue color with several white decorative elements. In the top left, a series of thin white lines converge towards a central point and then fan out towards the right. On the right side, there are several thick, curved white bands that sweep across the page. In the bottom left corner, there is a small white horizontal line.
